Budapest Is Solving the High Living Problem

The city of Budapest has invested \$100,000 in municipal shops, where meats, poultry and dairy products are sold at "reasonable" prices; that is, at prices which yield 5 to 6 per cent net on the capital. The city has gone into slaughtering and has killed 10,000 horses in a year.

There is also a municipal bakery, which has turned out 81,000 pounds of bread a day and is being increased to a capacity of 110,000 pounds a day, or more than 13 per cent of the city's total daily bread consumption.

The city has also formed a company to import fresh meat from Roumania and Servia.

Budapest has built in twelve months 1279 model houses and tenements, with suites of one to three rooms, exclusive of closet, pantry and kitchen, and renting per year at \$36.50 to \$60.27 for the one-

room suites, \$101.50 for the two-room and \$182.70 for the three-room.

A hotel for bachelors earning not over \$406 a year also has been built. It is called the People's hotel. It has 440 bedrooms, of which 396 are rented at 12 cents each a night and the others for 16.2 cents. The place has a priced dining room for 360 persons, laundry, library, bathroom, disinfecting plant, emergency hospital and dispensary.

A municipal lodging house was constructed costing \$121,000, with sleeping capacity for 150 men and thirty-nine women and day accommodations for 159 children of parents who have to leave home to go to daily work.

The city council has appropriated \$152,250 for building three municipal homes for servants, in connection with an employment bureau.—Budapest cor. New York World.

Budapest megoldja a drágaság kérdését.

100,000 dollárt fektet községi boltokba, ahol élelmiszereket árulnak, elfogadható árban. Lóhús mészárnyékek, kenyérgyár. Egy év alatt a város 1279 modelházat és lakást épített /na én ismerem ezeket a model lakásokat! Ritoók/ háromszobásokat és egy hotelt nőtleneknek. Városi lakóház /azt hiszem inkább menhelyről van szó/ épült 150 férfi és 39 asszony részére és napközi otthon/ 159 gyermek részére is épült. Cselédotthon részére 152.250 dollárt szavazott meg.
